RECOMMENDATIONS BASED ON LAND USE CONFERENCE SUMMARY

At the Annual Meeting of the Ontario Soil and Crop Improvement Association, the directors and delegates devoted considerable time to a discussion of the December Land Use Conference. As a result of these discussions, pertinent recommendations were made, a copy of which is attached.

The O.S.C.I.A. feels that the December Conference provided excellent background material for progress in land use planning. Continuing progress demands the active participation of farm organizations and municipal bodies, and individuals.

Evaluation of the Conference is proceeding based on the submissions of the participants. The Evaluation Committee would still appreciate receiving comments on the questionnaire provided.

We trust you will find the reference material provided by the Conference helpful in establishing an effective land use policy, and solicit your continued active interest.
